perfect fit

stanley/stella

A full-page photograph of three women of different ages and ethnicities laughing joyfully. They are all wearing white t-shirts and light blue jeans. The woman on the left has dark curly hair, the woman in the middle has dark hair in a bun, and the woman on the right has white hair. They are standing close together, with the woman on the right having her arm around the woman in the middle. The background is a plain, light-colored wall.

Every body tells a different story

That's why great garments start with a great fit. Our range of tailored styles - from sleek to oversized - delivers comfort, confidence, and style for every wearer. Each fit offers a distinct feel, balancing form and freedom of movement.

Our different fits

Fitted

Sleek silhouette that follows the body’s natural contours.

This refined fit offers a polished look with just enough room for comfort and movement. Ideal for Corporate collections, premium retail, and style-conscious brands seeking sophisticated silhouettes.

Examples: Stella Ava, Stella Ella.

Medium fit

Not too tight, not too loose - just right.

Our most versatile fit sits comfortably on the body with balanced proportions that suit virtually every body type and purpose, making it our most popular option. Its universal appeal is perfect for lifestyle brands, corporate segments, or as a premium everyday essential.

Examples: Crafter, Creator 2.0, Rocker.

Relaxed fit

Effortless comfort with generous room through the body and sleeves.

This modern silhouette drapes naturally and offers freedom of movement with a laid-back feel. Ideal for modern fashion brands, music merchandise, and lifestyle collections.

Examples: Sparker 2.0, Breezer, Freestyler.

Oversized

Bold proportions with intentional volume.

Featuring dropped shoulders and a boxy cut, this fit creates a strong visual statement inspired by contemporary streetwear. Ideal for trend-driven retail, fashion-forward brands, music merchandise, and youth-oriented collections.

Examples: Asher, Blaster 2.0.
